

AQUATIC SPORTS

SCUBA EQUIPMENT MAINTENANCE PRICES 2020

Aquatic Sports is a certified repair center for every major brand of SCUBA dive equipment. From Aqua Lung, ScubaPro, Mares, Atomic, Deep See, Sherwood, Oceanic, Xcel, Whites, XS Scuba, and more! Aquatic Sports has you covered with all your annual inspections and kit replacement needs.

If you purchase your equipment with a warranty, an annual service must be completed to ensure that your warranty remains valid.

There is a great value in purchasing new equipment from an authorized dealer like Aquatic Sports. Your warranty ensures that all parts kits needed for the life of your equipment come *free of charge!*

Without a warranty, the cost of your service *does not include parts kits.* Proof of purchase and annual service/inspection are required to *validate original warranty equipment.*

If you are interested in learning more about your equipment and how it functions, consider taking our **Equipment Specialty Course**. This one-on-one course will teach you how to disassemble, review, analyze, diagnose, clean, reassemble, and test 1st, 2nd, and alternate stage regulators with one of our qualified service technicians. Having a better understanding of these systems will give you a greater appreciation for the investment you've made in your own equipment.

Call for pricing or email us at SCUBA@Aquaticsports.com for details!

Prevent Corrosion & Rust

Keep your **life support equipment** in working order! Get the annual service to prevent a buildup of corrosion and rust.

Corrosion due to improper cleaning and lack of maintenance can affect the moving parts of the regulator. Buildup of rust and corrosion will make it difficult to disassemble for servicing.

Without proper care and maintenance, rust and corrosion can build up and harm the internals of your regulator.

When regulators are serviced annually, accessing the internals during the service can be done easily and without harm to the first stage. The annual service will prevent buildup of corrosion and rust keeping your equipment **safe to use**.

Services Price List
